MEMORANDUM FOR RUU USERS

SUBJECT: Software Version Description (SVD) for Installation  
Support Module (ISM) Record Update Utility (RUU) Interim Change  
Package (ICP) P05-A67-08-02-A

1. Enclosed is ICP P05-A67-08-02-A which provides a formal change information to the Record Update Utility (RUU) ISM
2. Acknowledgement of installation of this ICP must be made IAW instructions provided in Enclosure 1.
3. This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
4. Security Implications: NONE.

## 1. Scope.

1.1 Identification. This Software Version Description (SVD) applies to the Record Update Utility (RUU) running on Army Standard Information Management System (ASIMS) and networked AIX operating system on UNIX platforms.

1.2 System Overview. RUU is part of the ISM Project which is an army-wide Major Automated Information System (MAIS) initiative.

The primary objective of ISM is to enhance, through automation, installation management functions. ISM applications consist of standard procedures packaged into functional applications which automate as well as integrate day-to-day installation processes. ISM applications use the Installation Level Integrated Data Base (ILIDB), which is the central repository for data that is common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

The RUU software supports the personnel portion of demobilization. This may be utilized to perform the peacetime (garrison) Military Personnel (MILPER) functions that support In-Processing, Out-Processing and Transition Point Processing. It facilitates the preparation and administrative handling of records, forms, memos and orders and automation of required forms.

1.3 Document Overview. This document provides the instructions necessary for the implementation of the formal Interim Change Package (ICP) P05-A67-08-02-A of RUU. It informs the users of the changes made to the system and provides Point of Contacts (POCs) to be contacted in case of problems.

## 2. Referenced Documents.

2.1 Referenced Documents. This paragraph has been tailored out.

## 3. Version Description.

3.1 Inventory of Materials Released. This paragraph has been tailored out.

3.2 Inventory of Software Contents. Hardware platform - ASIMS/AIX OS users (installation supported). This change package contains the following files.

PROGRAM	VERSION	UPDATE
ruu_0802.cpio.Z	0800	21 Sep 1998
install_ruu_0802	0800	21 Sep 1998
README.ruu_0802	0800	21 Sep 1998

Change Package Control Number: P05-A67-08-02-A

## 3.3 Changes Installed.

### 3.3.1 Corrector Descriptions - Technical.

1. ECP-S/E P05-R202-001
  - A. CYCLES: None
  - B. PROGRAM: RUU
  - C. PROBLEM: Witness help/choices menu not working.
  - D. RESOLUTION: Modified code to correct problem
  - E. ICP: P05-A67-08-02-A

### 3.3.2 Corrector Descriptions - Functional. None.

### 3.3.3 Summary of Changes.

- a. Copy library member changes.
  - 1. Changed: None.
  - 2. Deleted: None.
  - 3. Added: None.
- b. Control library member changes.
  - 1. Changed: None.
  - 2. Deleted: None.
  - 3. Added: None.

3.4 Adaptation Data. This paragraph has been tailored out.

### 3.5 Related Documents.

3.5.1 Technical Documentation Changes. A new AIX version of Software Center Operator Manual (SCOM), AISM 25-P05-A67-08-02-A-A09-AIX-SCOM dated 10 March 1998 has been issued. This current version of AISM 25-P05-A67-08-02-A-A09-AIX-SCOM may be obtained from:

U. S. Army Information Systems Software Development Center-  
Washington  
Attn: AMSEL-SE-IS-SDW-E-I, Stop H-17.  
Fort Belvoir, VA 22060-5576.

3.5.2 Functional Manual Changes. There are no functional documentation changes for this package.

### 3.6 Installation Instructions.

These instructions explain how to install RUU ICP P05-A67-08-02-A onto the host computer at the installations.

Pre-Install Procedure. Before beginning to install RUU ICP P05-A67-08-02-A onto the ISM host computer, follow this procedure to make sure you have the information you will need when installing.

STEP 1. Verify Oracle. The Oracle RDBMS must reside on the host and be on-line.

2

Change Package Control Number: P05-A67-08-02-A

Install Procedure. This procedure installs ICP P05-A67-08-02-A for RUU R8.02 AIX version 4.2 operating system baseline onto the installation server. This portion of RUU R8.02 must be installed on each server at the installation.

STEP 1. Login with the login name of "root".

STEP 2. Select a drive on the system that contains at least 300 meg of available disk space. Change directory to that drive. Make a directory called "ICP.0802". Place the following files for ICP 0802 in the directory ICP.0802.

ruu_0802.cpio.Z	1417759	21 Sep 1998
install_ruu_0802	3698	21 Sep 1998
README.ruu_0802	1079	21 Sep 1998

STEP 3. Change directory to ICP.0802 and type:

P05-A67-08-02-A.txt  
chmod 777 install\_ruu\_0802 <Enter>  
./install\_ruu\_0802 <Enter>

STEP 4. The install\_ruu\_0802 will complete the following:

- a. uncompress and uncpio the transprc\_0802.cpio.Z file.
- b. change the ownership of and copy the files in this ICP into the home directory of user "ruu".
- c. record all output from each of the steps performed in a file named "ruu\_0802.log" located in the ICP.0802 directory.

STEP 5. Results of the installation in ruu\_0802.log should be reviewed.

3.6.1 Installation Effective Date. This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

3.6.2 Security Implications. This paragraph has been tailored out.

3.6.3 ANSOC Installation Instructions. All users receive the same baseline with change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS). This change package contains the following files:

Quantity	File ID	System	Change Package
1	ruu_0802.cpio.Z	AIX OS 4.2	P05-A67-08-02-A
	install_RUU_0802		
	README.ruu_0802		

Ensure that all master file backups have been completed prior to loading this package.

3

Change Package Control Number: P05-A67-08-02-A

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

Users must not, repeat, must not, make changes to the files.

Security impact: None.

3.6.4 Special Installation Instructions - All Users. None.

3.6.5 Point of Contact. If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3036.

3.6.6 Report of Implementation. Implementation of this change package must be reported by completing the change package implementation form. This report must be sent to Ft. Huachuca using Fax or mail.

3.7 Possible Problems and Known Errors. This paragraph has been tailored out.

4. Notes.

4.1 Notes. This paragraph has been tailored out.
